

# KnowDrugs

Digital Approaches in the Interaction with Drug Checking Service Users

**About**

**Drug checking in Germany?**

drug checking remains  
prohibited

drug counselling services are underfunded and lack resources

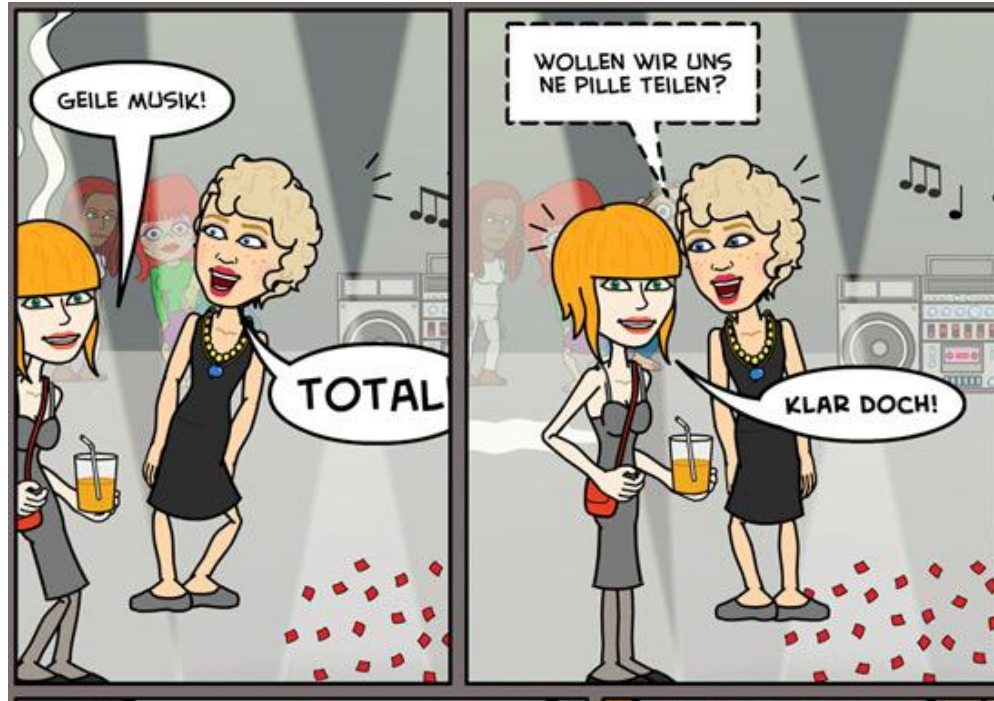

people have to rely on word-of-mouth information or drug checking  
results from other countries

**~ 50 %**

of the visitors of [saferparty.ch](https://saferparty.ch) and [checkyourdrugs.at](https://checkyourdrugs.at) come from  
Germany

# **Findings from qualitative research**

drug users have a high demand for  
information, but...

... information is often not available  
in relevant situations.

But even when information is available...

... they often end up like this

being present where  
the users are

being present where  
the users are

making drug checking  
results accessible

being present where  
the users are

making drug checking  
results accessible

connecting test results  
with drugs info and  
advice

being present where  
the users are

making drug checking  
results accessible

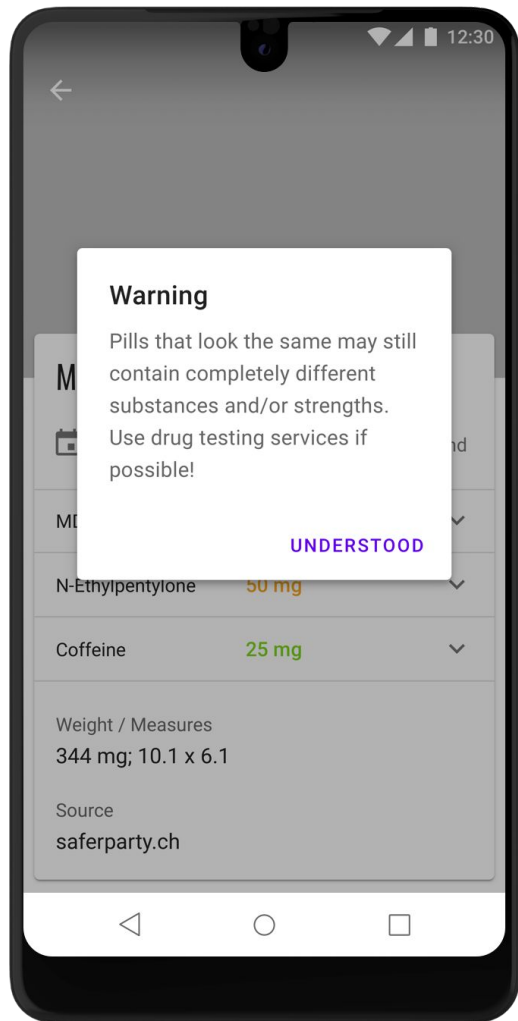

connecting test results  
with drugs info and  
advice

speaking the  
language of the user

### Warning

Pills that look the same may still contain completely different substances and/or strengths.

Use drug testing services if possible!

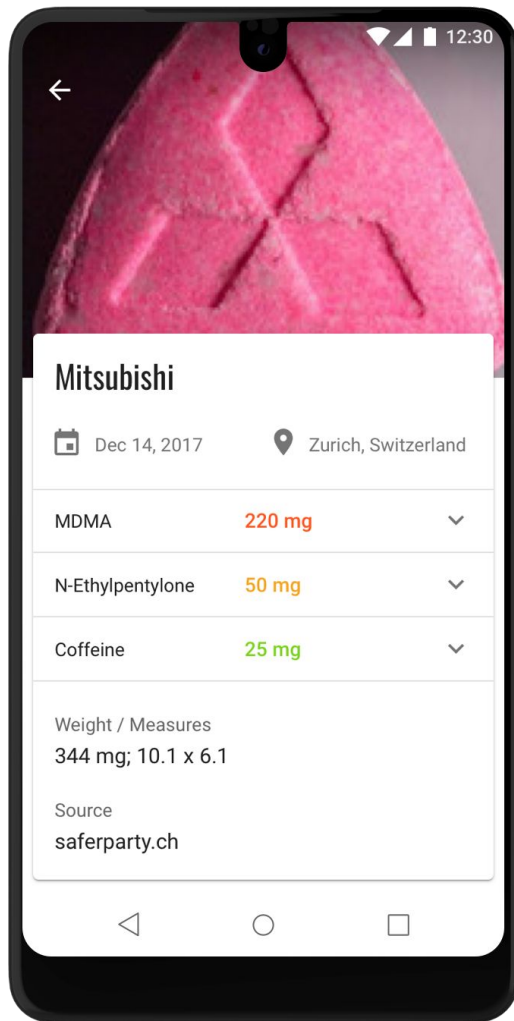

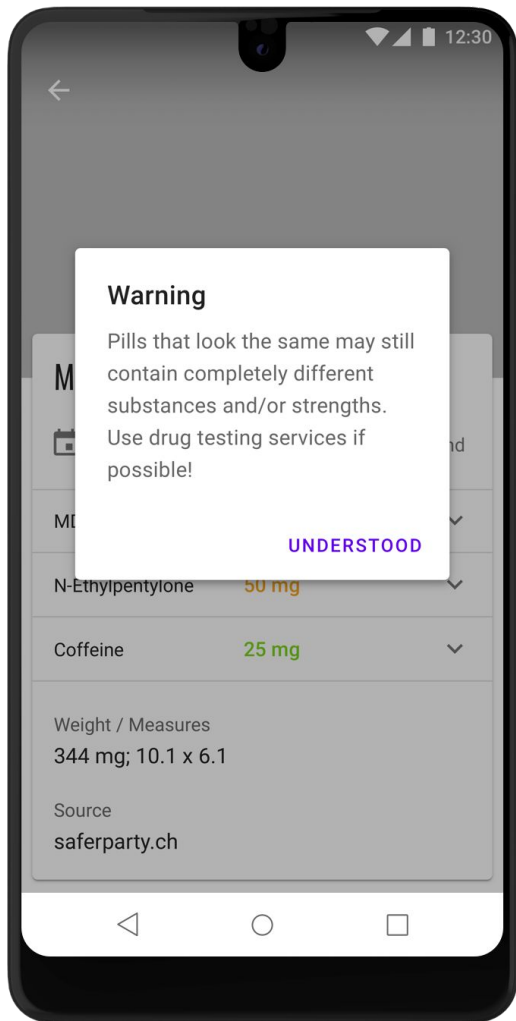

UNDERSTOOD

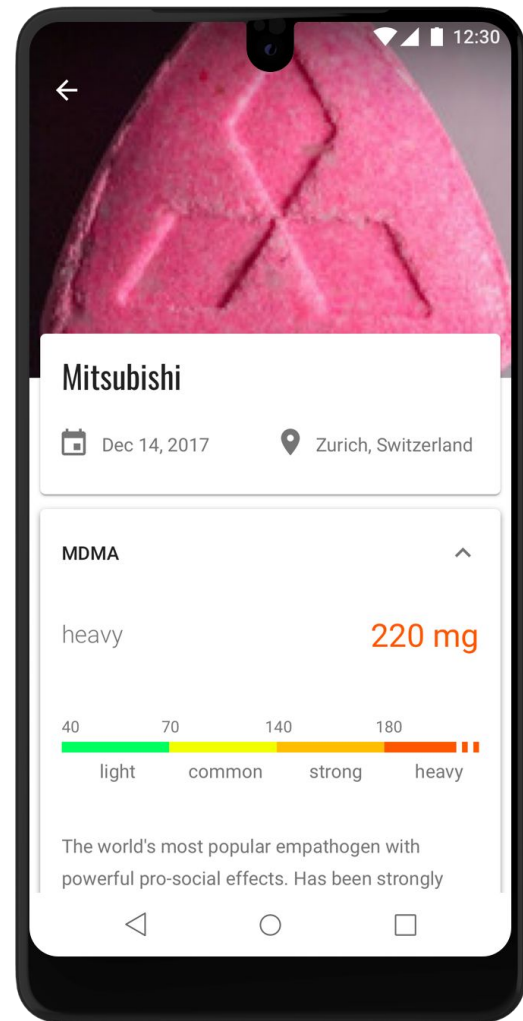

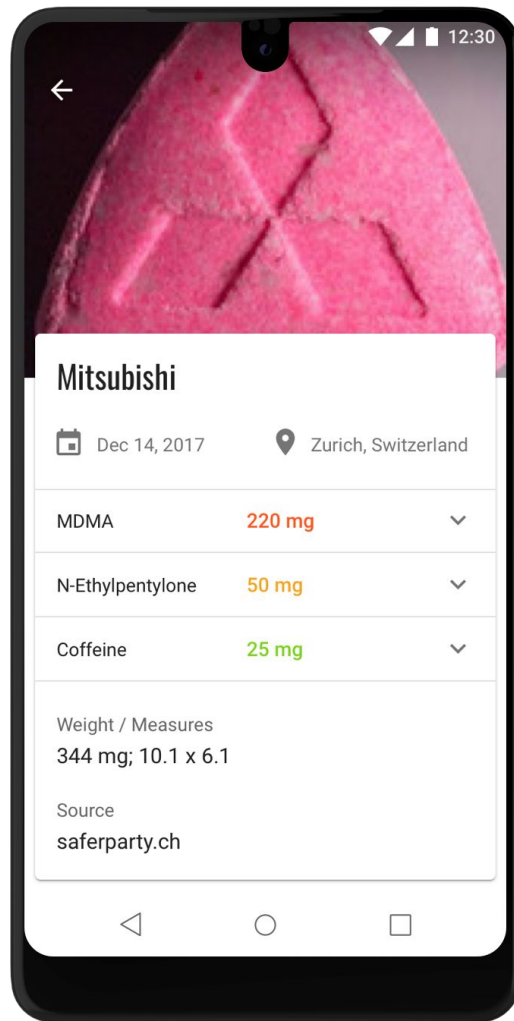

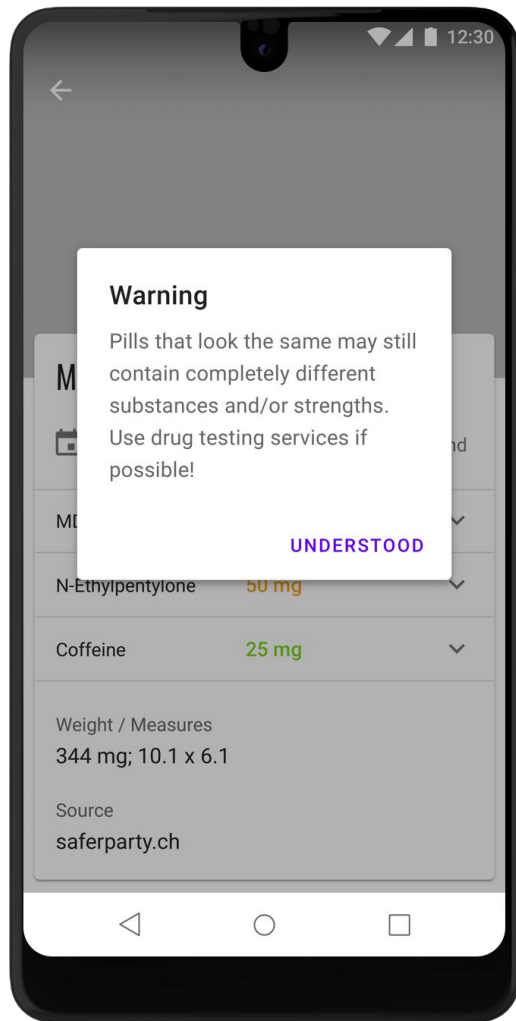

N-Ethylpentylone 50 mg

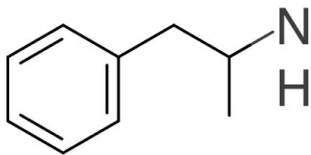

Coffeine 25 mg

Weight / Measures  
344 mg; 10.1 x 6.1

Nette app ohne Werbung und umsonst was will man mehr? Danke Philipp!

**Peter Lustig**

★★★★★ 10. September 2018

Super App, danke Philipp. Echt nützlich

Hallo Lukas, Vielen Dank für Dein Feedback! Ich habe bereits von mehreren Leuten gehört, dass eine Suche/Filter nach Farbe hilfreich wäre. Wir arbeiten dran :) Liebe Grüße, Philipp
